## Home Enrichment Activities:

- Choose a book that has pictures of people in it to read with your child. After going through the book once, look through the pictures and ask your child to point to different body parts they see in the book and compare them to their own. (Ex: Where is Ben's nose? Where is your nose?)
- Go to a park and engage your child in different activities that involve moving their whole body (Ex: Running, climbing, Jumping). Make sure to do it with them! After each activity, ask your child which parts of their body they used.
- This week we're talking about the Garden of Eden during Bible time. Genesis 2:8-9 says, "Then the Lord God planted a garden in Eden in the east, and there he placed the man that he had made. The Lord God made all sorts of trees grow up from the ground – trees that were beautiful and that produced delicious fruit. In the middle of the garden, he placed the tree of life and the tree of the knowledge of good and evil." Read this passage to your child and ask them what other kinds of plants they think God might have put in the Garden of Eden. Take a trip down your street, or even the park, and ask your child to point out things God had created.

**Special Snack:** Monday-Wednesday-Friday and five-day students will be having a "Special Snack" next week on Friday, August 23<sup>rd</sup>. If you wish to donate items, please use the sign-up outside the classroom window. Thank you!

Love in Christ,
