

Weekly Newsletter

July 27 - 31, 2026

Weekly Academics:

Letter: I

Number: 9

Color: White

Shape: Rectangle

Unit of Study: Gardening

Bible Story: The Fruit of the Spirit

Big Idea: God wants me to grow!

Bible Verse: "The fruit of the Spirit is love, joy, peace, patience, kindness, goodness, faithfulness, gentleness, self-control." Galatians 5:22

Share Day: Students may bring one item that is related to gardening or our academics of the week this Thursday or Friday.

Enrichment Activities:

- Do some gardening with your family! If you don't have any gardening space, plant some seeds in soil in a flowerpot. Have your child help you care for the plant and watch it grow over time.
- Read the "Parable of the Sower" in Matthew 13 of the Bible. Have a discussion of what this means, especially to have "good soil". Pray and thank God for His Word, which is like a seed that grows in us!
- Create a garden sensory bin for your child to explore! You'll need a large bin, kinetic sand (for the dirt), toy shovels and rakes, some fake flowers, and some small pots (or you could use plastic cups). You could add fake insects if you like! Allow your child to explore the bin, planting the flowers into the pots or the "dirt". Have fun!

Special Note: We have enjoyed having your children in our summer session! Thank you for sharing them with us!

God bless!
