Unit of Study: Dinosaurs

Bible Story: Jesus Walks on the Water

Color: Brown **Shape:** Circle **Number:** 10

Share Time: Students may bring something pertaining to dinosaurs to share with the class.

Birthday Wishes: I would like to wish a "Happy Birthday" to London on May 17th!

Special Snack: We will be having a "Fruit" Snack this Friday, May 20th. If you wish to bring items for our snack, please see list posted outside our room. Thank you!

Progress Reports: The Progress Reports will go out Thursday, May 26th, and Friday, May 27th.

Holiday: The school will be closed Monday, May 30th, for Memorial Day.

Teacher Prep-Day: The school will be closed Tuesday, May 31st, for Teacher Prep-Day.

Classical Music: The composer for the month: Johann Sabastian Bach

Enrichment Activities:

- Have fun looking for brown items around your house.
- Here is a fun activity for you and your child. Have fun digging in the backyard and pretending to look for dinosaur bones.
- Read a book about dinosaurs with your child. Discuss how dinosaurs are extinct, and that they no longer live on the earth.
- Thank God for creating animals that lived so long ago.
- Read Mark 6:45-51. The disciples (helpers) were in the boat, when the wind started to pick up, causing the boat to be too hard to manage. The disciples must have been scared. I would have been scared too! Jesus wasn't in the boat but saw what was happening from the shore. He started walking on water towards the boat. Can you walk on water? Jesus is the only one who can walk on water! The disciples thought they were seeing a ghost, but soon realized it was Jesus. Jesus told them not to be afraid. Jesus entered the boat and the wind stopped! The disciples were able to witness another miracle of Jesus!

God Bless!
